Vinification After careful hand harvesting at the end of October, natural fermentation in 1000l Hungarian oak barrels.

Maturation 10 months in used 1000l oak barrels, then another 24 months in airtight maturation tank.

Tasting note Pure straw yellow color.

At first, it is restrained, but at the same time full, typical of Somló, with hints of apricot.

The taste is pleasantly complemented by ripe pears and apricots, the slight bitterness of the typical dried grass and herbs, and a hint of saltiness from the soil.

The aftertaste is exceptionally long.
